PROFILE

A professional Software Engineer with a track record of success in E-commerce, Government and Nonprofit Organizations, Startups, and Educational institutions industries. A culturally flexible, tech-savvy, and quick learner, Proficient in HTML, CSS, JavaScript, Angular, and React with expertise in responsive design, cross-browser compatibility, and user experience optimization. Strong collaboration and problem-solving abilities, committed to delivering high-quality and visually appealing user experiences. Willing to relocate and take on new challenges.

EDUCATION

Bachelor In Business Information Systems Helwan University GPA: 3.1	10/2015 – 06/2019 Cairo, Egypt
Diploma In Frontend and Cross-platform mobile application Track Information Technology Institute	2021 – 2021 Cairo, Egypt
Diploma In Web development using angular and node JS National Telecommunications Institute	2021 – 2021 Cairo, Egypt

PROFESSIONAL EXPERIENCE

Binder Senior Front-End Developer	10/2025 – Present Saudi Arabia
<ul style="list-style-type: none">• Drove performance optimization across the app and ERP systems, ensuring scalability under growing usage.• Launched and led the frontend development of an RMS built as a SaaS solution, from initial setup to core feature delivery.• Led and mentored frontend developers through code reviews and technical guidance.• Worked cross-functionally to ship scalable, user-focused solutions.	
Binder Front-End Developer	04/2024 – 10/2025 saudi arabia
<ul style="list-style-type: none">• Develop responsive user interfaces for ERP systems• Collaborate with designers and back-end teams to ensure seamless app and ERP integration• Integrate front-end with APIs for ERP functionalities• Optimize app and ERP performance for speed and scalability• Build and maintain core features like search, filtering, and procurement workflows• Test and debug ERP system issues• Ensure cross-platform compatibility with web interfaces• Ensure accessibility and usability across mobile devices and ERP systems	
VIJUA Front-End Developer	04/2022 – 04/2024 Cairo, Egypt
<ul style="list-style-type: none">• Utilized industry-standard ebook creation tools (e.g., Figma , Calibre) to design and format ebooks for various platforms and devices.	

- Architect and develop complex web applications with a focus on scalability, performance, and maintainability.
- Developed and created engaging ebooks for diverse user demographics, ensuring high-quality content and visually appealing layouts.
- Develop responsive and mobile-first interfaces that provide seamless experiences across multiple devices and platforms.
- Stay up-to-date with emerging technologies, industry trends, and best practices, and propose
- Drive the adoption of coding standards, code reviews, and automated testing practices to maintain code quality and ensure robustness.
- Collaborate closely with UX/UI designers to translate design concepts into functional, pixel-perfect
- user interfaces.
- Collaborate with back-end developers to integrate front-end components with server-side logic and APIs.
- Conduct performance optimizations, including code profiling, bundling, and caching, to deliver fast and responsive applications.
- Participate in Agile development processes, including sprint planning, task estimation, and retrospectives.

Vega Data

Front-End Developer

10/2021 – 04/2022
Cairo, Egypt

- Collaborate closely with data analysts and designers to create visually appealing and interactive data visualizations using HTML, CSS, and JavaScript.
- Develop and implement responsive and user-friendly web interfaces for data analysis tools and applications.
- Utilize front-end libraries and frameworks, to efficiently render complex data into dynamic and insightful visual representations.
- Optimize data visualizations for performance, ensuring fast loading times and smooth interactions.
- Work closely with back-end developers to integrate front-end components with data processing and storage systems.
- Conduct thorough debugging of data visualizations across different devices and browsers to ensure cross-platform compatibility.
- Stay updated with the latest front-end development trends and technologies, and propose
- Collaborate with UX designers to enhance the overall user experience of our data analysis products.
- Conduct code reviews and provide constructive feedback to maintain code quality and adherence to best practices.

SEJALL84

Front-End Developer

04/2021 – 10/2021
Cairo, Egypt

- Collaborate with the design team to translate visual concepts into functional user interfaces using HTML, CSS, and JavaScript.
- Develop responsive and mobile-friendly websites and web applications that provide seamless user experiences across various devices and platforms.
- Ensure cross-browser compatibility and optimize performance for fast loading speeds.
- Implement interactive features and animations to enhance user engagement and visual appeal.
- Conduct thorough debugging to identify and fix any front-end issues or bugs.
- Collaborate closely with back-end developers, designers, and other stakeholders to ensure seamless integration and delivery of projects.
